Dear Mr Maule

BY EMAIL

**Re: Proposed drainage and highway improvements on Garth Road, Marown**

The Department wishes to advise that the Garth Road highway scheme will start on site in early October 2018.

As you will be aware there are currently issues with storm water pouring out of fields and driveways and running across and down the road. Also the road surface is in poor condition and needs to be re-laid.

Our designer has examined the existing drainage ditches and found a few issues along the way which need to be rectified for the highway drainage to work properly. This includes removing vegetation and materials from roadside ditches and outfalls which run alongside boundary hedges.

The work is expected to take 10 weeks to complete and there will be traffic management in place which could mean that road closures may be required at certain times.

Yours sincerely,

**Jim Davidson**  
**Project Coordinator**
